

Date:

Mr. Wayne Fiset, District Manager
Sault Ste. Marie District
MNRF

Dear Mr Fiset

As a person who enjoys outdoor recreation and as resident of northern Ontario I am keenly interested in any new opportunities for hunting or fishing in this area.

Since the re-introduction of wild turkeys on St. Joseph Island there has been a gradual migration and population build up of wild turkeys on the mainland adjacent to the island in WMU 36.

I am writing today to request that you initiate the process to put in place a spring wild turkey hunting season in WMU 36 for the spring of 2016.

Yours Sincerely

cc Corrine Nelson, Regional Director North East region
